THE PASSING ACADEMY IS A PRIVATE COACHING COMPANY THAT MAKES POTENTIAL HAPPEN

St. Pius' Trey White

Trey White will beat you with speed, agility, and if that doesn't work he will pass on you with a strong accurate arm. Newly signed to The Passing Academy, he comes in with an excellent potential!

Starting QB this past year as a sophomore for St. Pius, Trey helped the Golden Lions to a 12 and 1 record, eventually losing in the State Quarterfinals to the 3-A State Champs Peach County.

Trey's impressive season stats were 39/69 passing for 665 yards with 9 TD's and 2 Int's. 134 rush attempts for 854 yards with 10 rushing TD's. And 2 years to get better!

Did I say he was fast, yes, he ran a 4.58 40 yard dash at the Scout Combine. To go with that speed is a big arm. These assets are a great compliment to St. Pius' Veer Offense.

In playing Quarterback the mental characteristics are ultimately important - "He is a Tebow junior, a leader, hyper competitive, and a hard worker. Everything I would want mentally from a quarterback," said Mike Jabaley of Highlight Reels (recruiting service).

The Passing Academy is very excited about working with Trey and it being the offseason, we have a program set up to deliver the fastest results based on his current skill level. Day 1 - Our Video Breakdown Analysis: This video showed us the priorities to smooth out in his technique. We have created Trey's Personalized Technique Training Program in order of importance.

Along with smoothing technique we will be training footwork, drops, ball handling, etc... We will be teaching our classroom sessions with Trey learning offense, reviewing film and understanding defenses. When a QB has defensive recognition his anticipation goes through the roof! Also we will teach him how to workout like a QB, with rotational and functional power, and agility to manipulate the pocket.

Trust in this, the Golden Lions will be "Well Armed" next season!
