THE PASSING ACADEMY IS A PRIVATE COACHING COMPANY THAT MAKES POTENTIAL HAPPEN

Special Feature

Clay Chastain Discovered!

"You are a Division 1 top tier quarterback," I told Clay and his father, Bruce, 6 months ago on there 1st visit with The Passing Academy.

Clay Chastain of Harrison HS, at the time was a platoon QB on Junior Varsity. He and his father were questioning my evaluation; as I explained, "it comes from a physical base of: 1) huge arm, 2) fluid movement, and 3) big and ranging body."

Clay working with The Passing Academy, worked extremely hard in balance, throwing technique, footwork, and classroom. He excelled in all of those areas as expected, opening the door to being discovered.

I spoke with a contact, Greg Malever, who is highly connected to University of Florida, arranging a workout at U of F's summer camp. Clay went and performed flawlessly, and the coaches were amazed!

The night before, not a college knew Clay Chastain's name. As of 10:00am the next morning I received multiple texts and voicemails that Clay was "killing it," going on the watch list of Georgia, Marshall, Louisville, and Illinois. And to add to it, **Clay was invited to Friday Night Lights!**

Friday Night Lights is the most coveted recruiting event in the nation. Getting on the invite list puts you at a blue chip status! The recruits on this list are mainly rising seniors, and Clay is a junior!

Only more exciting things to come from Clay Chastain, stay tuned.

ANNOUNCEMENTS:

New Students Signed To The Passing Academy

Ethan Cobb, Quarterback, of Walton Junior Raiders has signed with The Passing Academy again. He is a big stand in the pocket QB. We intend on making his footwork fast and quick to go along with his big arm.

Heath Clevenger, is a Quarterback from the Sharon Springs youth program. He is 8 years old which gives him a tremendous amount of time to reach his "number," which is the amount of reps to perfect his skill and insure being a great QB.

Matthew Huffstetler is a Junior Hoya from Harrison that is a fleet footed QB. His focus and coachable characteristics makes one think he can understand quickly whatever you throw at him. He has a strong raw throwing technique that we are excited about. His concentration will be on balance and a powerful base.

Powerade MVP Of the Week

Brad Thiltgen
Of The Walton Junior Raiders

'POWERADE ION4 - ION4 is the name we've given to our advanced electrolyte system, which helps replenish the four electrolytes in the same ratio they are lost in sweat.

ION4 is what makes POWERADE unique, as no other sports drink on the market has this blend of electrolytes. Sodium - Potassium - Calcium - Magnesium'

-Alex Zigliara Of Coca Cola
